

Manufacturer of technically advanced  
flashlights and watertight  
protector cases

## Medium Cases

### #1510 TRAVEL CASE

Unbreakable, watertight, dustproof, chemical resistant and corrosion proof. The Peli? 1510 case allows you to securely protect, and easily carry, all of your valuable belongings (computers, photo equipment/film, electronic devices) while travelling. Like the rest of Peli? cases, it is made of ultra high impact copolymer polypropylene and it offers strength and performance against extreme conditions, rough handling, dust and water. It comes with a new effortless-release extendable handle, rugged wheels, the "double step latches", the new metal reinforced padlock protectors, Peli?'s patented o-ring sealing system and the automatic pressure relief valve, which ensures that the air pressure inside the case will automatically equalize if the case is taken to high altitudes. Your equipment can fit into the high density foam or padded dividers for total subjection and protection.

**Unconditionally Guaranteed... forever.**
