

Manufacturer of technically advanced  
flashlights and watertight  
protector cases

## Large Cases

### #1630 CASE

Unbreakable, watertight, dustproof, chemical resistant and corrosion proof. Boasting 135 litres of possible storage space, the 1630 is perfect for safely transporting just about anything (including full sized computer towers and larger sensitive electronics). Ergonomic features include two extra-wide, side-grips for double hand lifting, as well as two heavy-duty sets of ball-bearing, polyurethane wheels and an extension handle for easy transport.

Like all Peli Protector Cases, the 1630's cell-core construction protects sensitive equipment against extreme conditions, rough handling, dust and water.

This case is a perfect solution for transporting sensitive equipment, for companies handling warranty return of large electronics and for shipping inside trade show booth containers.

**Unconditionally Guaranteed ... forever.**

TEMPERATURE RATING			
MINIMUM	-23° C	MAXIMUM	+99° C
